

PMSI

Innovative spirit is the hallmark of PMSI—single-source solution for workers' compensation and industry pioneer in cost-containing pharmacy and medical services for injured workers.

Respected for its groundbreaking solutions, tools, and technology innovations, Tampa-based PMSI leads the nation in marketing scores of industry-first, thought-leading, cost-effective programs and services to manage workers' compensation claims and catastrophic care needs.

PMSI's history of innovation includes:

Single-source solution for workers' compensation

Cardless pharmacy benefits management

Pharmacy bill review

Vendor compliance program

Pharmacy reporting services in Florida

PMSI's innovative out-of-the-box thinking began in 1976 with Stan Harrell, a Tampa pharmacist—a spirited visionary who realized that eliminating the multiple calls necessary to facilitate services for an injured worker would provide better healthcare management. Stan envisioned a single-source solution. For the first time, payors could purchase approved services at contracted prices with just one call,

while having all the details and paperwork handled for them—with confidence that services were compensable under their managed care program. This innovative approach set the industry benchmark by saving time and money plus providing pharmacy supplies to patients faster and more efficiently.

From its inception with one client and a handful of employees working in a garage-size office, PMSI has grown to over 1,000 dedicated and committed associates in five corporate locations—with headquarters still in Tampa. PMSI is proud that they are still serving their first injured worker—testimony to the company's reliability and caliber of professionals.

The working culture of PMSI reflects a strong commitment to care—for clients, associates and the Tampa Bay community. Offering rewarding career opportunities in pharmacy, nursing, information technology, sales, administration, and customer service, the company also actively supports local non-profit health and educational organizations.

PMSI is the nation's largest full-service network provider of pharmacy, Medicare Set-Asides, medical services and equipment, and clinical services. The company processes over 4 million pharmacy and medical services transactions for injured workers nationally. PMSI operates its own home delivery pharmacy, maintains a network of nearly 60,000 retail pharmacies and has over 10,000 accredited service providers devoted to delivering every homecare component injured workers need for recovery and return to work—PMSI is the single-source solution for workers' compensation.

The success of PMSI centers on anticipating market needs and pioneering solutions to make life easier for workers' compensation payors and injured workers. It also lies in being a company that deeply values employees and their contributions. As PMSI enters its third decade, these innovative, spirited traditions will continue.
